

PROSHIELD OUTDOOR SIGNS SPECIFICATION

FACT SHEET

- 15 year guarantee against fading.
- Stronger- withstands vandalism including rocks, hammers, prying, and bending.
- More UV inhibitors to resist color change.
- .214 Thick.
- Longer outdoor exposure in extreme weather conditions.
- The service temperature for this composite sign is -40 to +176 deg. F.
- No rusting or stains.

This ***high performance*** sign is ***specially formulated*** to resist color change, chemicals, corrosion and abrasion. It will continue to look good for years while maintaining its ***superior strength***.

Construction:

The two ply construction is ***thick non-glare polycarbonate*** – giving the sign a rugged look with a thick edge design and pebbled texture back surface

The legend/messages are printed with ***UV inks*** on the underside of the clear polycarbonate. This subsurface image is protected on the backside by a permanently bonded and embossed vinyl backer.

You can order your custom signs in the following sizes:

5" x 7"

10" x 14"

7" x 14"
